How We Work Together

DEVELOP SYSTEMS CHANGE LEADERS

Establish communities of socially and systemically-minded leaders who are driven to transform economic systems toward more sustainability and inclusivity

Community Chapters and Fellowships Programs

Build and connect local and global communities.

Develop leadership capabilities and provide opportunities to learn and educate others about systems change.

Create opportunities to take action.

SHORT-TERM OUTCOMES

Our community of leaders invest in and benefit from local and global support networks.

Our community of leaders have grown core systems change leadership skills.

Increased understanding and use of a systems change leadership approach amongst university students and young professionals.

Our community of leaders take action toward creating a more sustainable and inclusive economic system.

INTERMEDIATE OUTCOMES

Our community of leaders create new social enterprises and lead more socially-responsible organizations.

Our community of leaders influence policy change to create a more inclusive and sustainable economic system.

Our community of leaders use systems change leadership skills to inform their individual values, actions and decisions.

ADVOCATE FOR BETTER POLICIES

Advocate for changes to laws, policies and regulations that expand economic opportunities for people living in poverty.

Advocacy Campaigns and Government Relations

ACTIVITIES

Conduct policy analysis and research.

Build capacity of our community of leaders to take action on policy issues.

Communicate, campaign and lobby to educate the public and influence policy-makers.

Build partnerships with civil society organizations and other stakeholders.

SHORT-TERM OUTCOMES

Increased evidence-based recommendations for policy change.

More informed, engaged and mobilized community.

Increased support for our community of leaders' proposed policy changes amongst the public, civil society organizations, and policy-makers.

INTERMEDIATE OUTCOMES

Public policies, resources, and institutions build opportunities and expand the freedoms of the world's poorest and most marginalized.

TRANSFORM HOW BUSINESS IS DONE

Invest in social enterprises and their leaders that pioneer new business models to benefit people and transform markets.

Impact Investing and Fellowships Programs

Offer financial and human capital investment (fellowships programs), coaching, and mentorship to early-stage social enterprises.

Facilitate knowledge-sharing within the impact investing community.

SHORT-TERM OUTCOMES

Early-stage social enterprises are more strategic, efficient and investment ready.

Increased evidence for the effectiveness of social business models and impact investing.

Investors are more willing to invest in early-stage social enterprises and these businesses receive more investment.

Increased number of individuals becoming social entrepreneurs.

INTERMEDIATE OUTCOMES

Early-stage social enterprises achieve higher financial returns, improve the livelihoods of beneficiaries, and are better able to attract and retain local talent

Early-stage social enterprises are better structured and more resilient

Early-stage social enterprises receive greater investment and are able up to scale up to a regional level

ULTIMATE OUTCOME

A sustainable and inclusive economy, as measured by a reduction in both poverty and inequality. This economic future is one that will be equitable, participatory, growing, gender inclusive, sustainable, and stable.
